| Project Name  | <b>Plugging into the Future: An Exploration of Electricity Consumption Patterns</b> |
| Maximum Marks | 2 Marks                                                                             |

#### Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

#### Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ **Understand the existing situation in order to improve it for your target group.**

#### Template:

**PROBLEM – SOLUTION FIT CANVAS**  
 Project: Electricity Consumption Analysis Dashboard using Tableau

(Desired state) <ul style="list-style-type: none"> <li>Real-time, interactive dashboards</li> <li>Easy comparison and drill-down</li> <li>Automated updates and accurate insights</li> <li>Accessible from anywhere, anytime</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                         |

**PROBLEM – SOLUTION FIT SUMMARY**  
 Our solution fits the problem as it transforms raw electricity consumption data into meaningful, interactive insights through Tableau dashboards. It reduces manual effort, saves time, and empowers users to make accurate, data-driven decisions.
